REQUEST FOR PROPOSALS (RFP)

I. Background

The Illinois International Port District (“IIPD” or “Port District”) is an Illinois municipal corporation created to promote the shipment of cargoes and commerce through its facilities. The IIPD is the owner and master landlord controlling two land areas in South Chicago: Iroquois Landing, an open paved terminal with 3,000 linear feet of ship and barge berthing space located at the mouth of the Calumet River in the southwest corner of Lake Michigan; and Senator Dan Dougherty Harbor (Lake Calumet) which encompasses approximately 1,600 acres of land and currently is home to various harbor operations and terminals located at the junction of the Grand Calumet and Little Calumet Rivers, situated six miles inland from Lake Michigan. The IIPD’s harbor facilities are served by rail facilities and are adjacent to three interstate highways and feature an abundance of warehouse facilities.

The IIPD is a significant driver of freight movement and economic activity through the region serving as a link with downstate waterways and the Mississippi and Illinois Rivers. The IIPD’s harbor facilities accommodate movement of an estimated 26,000,000 cargo tons annually between shipping, barge, rail and trucking intermodal activity.

In addition to the IIPD’s harbor facilities, the IIPD’s Lake Calumet property is home to Harborside International Golf Facility, a world renowned 36 hole Championship links golf course. Lake Calumet is located immediately east of the recently designated National Historic Landmark of Pullman and immediately south of the forthcoming Obama Presidential Library and Center.

In 2017, the IIPD recognized a substantial improvement in operating conditions, seeing greater than 10% in revenue growth while realizing a reduction in long-term debt of approximately 60% as compared to the prior year. In addition to improvements in the District’s financial condition, the IIPD has recently commenced infrastructure improvement projects including its Butler Drive Project for improvement of roadway and rail facilities at 130th Street.

II. General Information

Pursuant to statutory charter¹, a primary mission of the IIPD includes studying and implementing harbor plans within area of the District to meet changing business and commercial needs. Commensurate with this mission, in June 2012, a Strategic and Capital Needs Study (the “2012 Study”)² was completed on behalf of the IIPD and made available to the public. The Study was published by the IIPD on its website www.iipd.com. Alternative #2 of the Study recommended the IIPD pursue implementation of a use agreement/master lease process. Subsequent to the 2012 Study, from time to time, the IIPD has investigated various potential master lease opportunities

2 The June 2012 Strategy & Capital Needs Study and the referenced report were prepared by an advisory team consisting of prepared by an advisory team including BMO Capital Markets GKST, Inc., Acacia Financial Group and Cabrera Capital Markets.

however no such prior investigation or effort has resulted in the award of, or entry into, any master lease agreements concerning the IIPD's real property assets and facilities.

Pursuant to this RFP, the IIPD hereby seeks proposals ("Proposals") from parties or firms interested in a master lease opportunity for the IIPD's maritime/industrial property under a long-term management and development contract ("Master Lease(s)/Use Agreement(s)") with the primary goal of enhancing regional growth and employment opportunities. While it is the preference for IIPD to select a single master lessee, IIPD is willing to consider alternative proposals for sub-components and explicitly reserves the right to structure partnership(s) that in IIPD's judgment are optimal.

All potential respondents are encouraged to review general background information regarding the IIPD and port operations which are published and available from the IIPD's website, www.IIPD.com. Specific financial operating information of the IIPD can be obtained from the website via the IIPD's annual budgets, annual financial statements and monthly financial reports. Of additional relevant note, respondents are also encourage to review information from the 2012 Study and the October 18, 2011 report entitled "The Economic Impacts of the Port of Chicago"³, which includes general information regarding the IIPD's industrial land holdings and maritime facilities, and identifies various strategic opportunities which could be available to potential respondents. While these reports include general information and discussion regarding the IIPD's real estate interests and strategic assets, respondents are cautioned that many of the facts, findings and suggestions in the report may not be accurate due to the elapse of time and change in circumstances for various lease matters referenced in the reports.

Within the 2012 Study the IIPD's physical and contractual assets are conceptually organized and categorized into five discrete components, from which multiple transaction opportunities were discussed for consideration, with railroad access rights comprising a sixth component. This current RFP further categorizes these assets into four distinct categories and seeks submission of proposed responses with respect to one or more of the components as well as any combination or the whole, at the discretion of each respondent, as to the following:

1. Iroquois Landing – The IIPD's holdings at Iroquois Landing include both developed and undeveloped parcels. The developed site area at Iroquois landing is situated on approximately 79 acres and is subject to a long-term building lease and operating license with North American Stevedoring Company (NASCO) which incorporates payment obligations for rent, license fee and wharfage/dockage use. The undeveloped site area consists of an additional 103 acres of adjacent land area which is also subject to long-term license by NASCO.
2. Lake Calumet (East Side Area) – The East side of the Lake Calumet maritime area at the IIPD on its North end includes several "finger" shaped piers extending into Lake Calumet and on its South side includes a 177-acre area leased to a single tenant, Kinder Morgan, who sublets a substantial portion of the area to several separate subtenants. Discussion is included within the 2012 Report with respect to potential capital improvement

³ The October, 18 2011 report entitled "The Economic Impacts of the Port of Chicago" was prepared by Martin Associates, Lancaster, PA.

opportunities with respect to the North portion of this East side of the Lake Calumet property.

3. Lake Calumet (West Side Area) – The West side of the Lake Calumet maritime area includes the land area along the west and southwest currently subject to several warehouses, train spurs, open space and dock locations along the southwest dock wall of Lake Calumet. The area is subject to a number of mid-term leases with third party tenants for use of the IIPD facilities and infrastructure within the area.
4. Track Access Rights – Each of the general IIPD land areas noted above is serviced by one or more rail companies, however only Norfolk Southern has a current operating agreement at the Port. Respondents may include valuations of the rail charges expected to be imposed for each section in addition to the valuation from the collection of the NS charges.

These four elements and their general locations are further detailed and depicted on Attachment #1 (IIPD MLA Opportunity Areas). Outside of these four elements, solicitation or proposals are not being sought under this RFP for other IIPD property holdings including the areas north and west of the Lake Calumet (West Side Area), which are identified in the 2012 Study as the Harborside International Golf Center area or the Square Marsh area.

This Request for Proposals provides the conceptual framework of the proposed transaction(s) and solicits your response on key valuation, structure and due diligence considerations with respect to these noted land holdings and development opportunities.

III. Response Requirements
